

SI 539 Final Project: Happening @ Michigan

Quality Assurance Report

Website: <https://events.umich.edu/>

Yifan Zhao

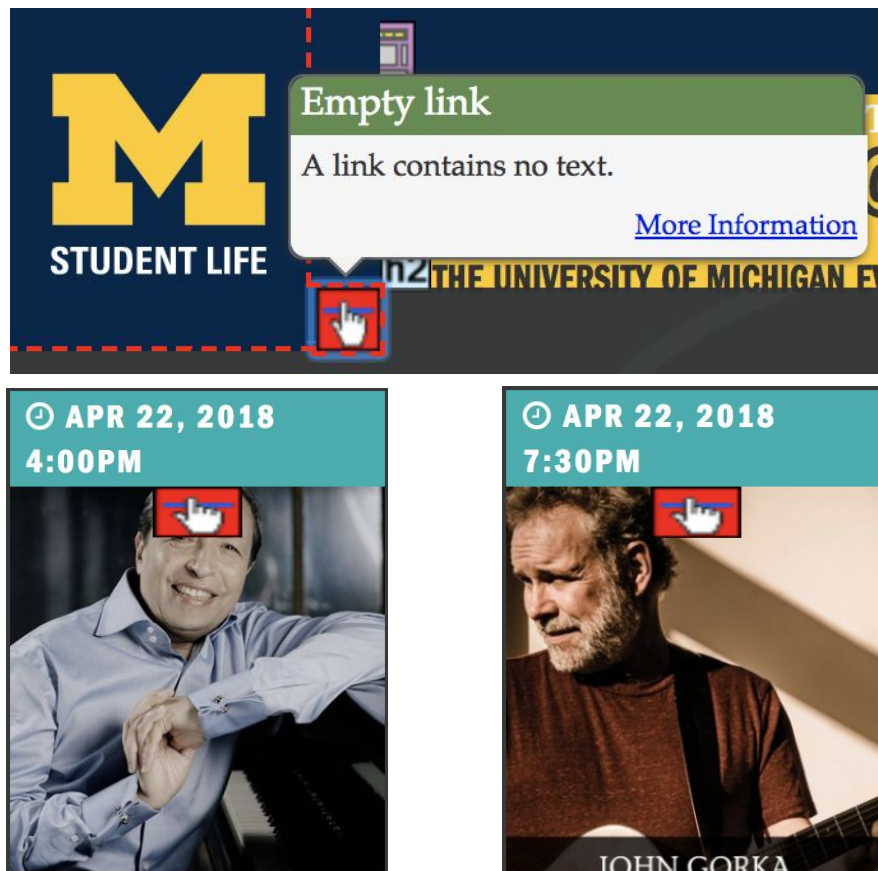

April 23rd, 2018

Criteria 1: Run through each page with the WAVE Chrome Extension.

No. Wave Chrome Extension shows 4 errors, with 3 links with no text and 1 broken skip link.

Recommendation 1:

For the following 3 pictures, their links should add alt text. And the webmaster also need to check if there is any link leading to no target.

(Figure 1: missing alt text)

Criteria 2: Users should be able to navigate through content using their keyboard.

Yes. Users are able to access all the elements on this site using keyboard.

Criteria 3: Users should be able to navigate content using a screen reader.

Yes. Screen reader can be used when navigating through all contents on this site.

Criteria 4: The general architecture and hierarchy of the content should make sense.

No. There is no header in this page. Some texts are too small to read (Figure 2). And some clickable elements are not clearly indicated besides browser's built-in effect change of pointer (Figure 2).

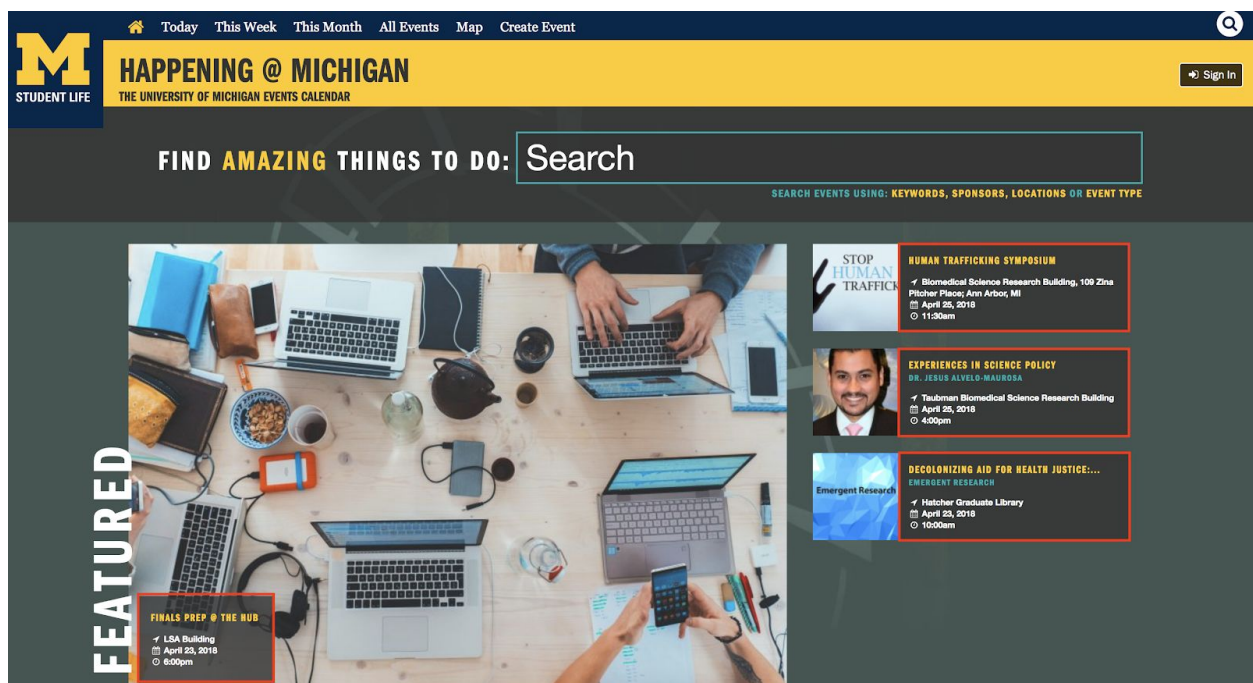

Figure 2: Text are too small to be read, and no effect for clickable elements

Recommendation 4: Include header for this site. Make all texts readable. And add hover effects to indicate all clickable elements.

Criteria 5: Charts and images should all have alt-text so that users with screen readers or users on a slow connection will still be able to understand the images.

No. See Criteria 1 for missing alt text.

Recommendation 5: All links should have alt text for keyboard and screen reader users.

Criteria 6: Decorative images should not be visible to screen readers.

Yes. All decorative images are invisible to screen readers.
